**DETAILED ACTION**

1. In view of the Appeal Brief filed on 8/20/2008, PROSECUTION IS HEREBY REOPENED. A new ground of rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below:

/Paul L Rodriguez/

Supervisory Patent Examiner, Art Unit 2123

- 
2. Claims 1-8 are presented for examination.

**Response to Arguments**

3. Applicant's arguments filed 08/20/2008 have been fully considered and they are persuasive. The previous rejection of the claims has been withdrawn.

**Claim Rejections - 35 USC § 101**

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

- 4.0 Claims 1-8 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

4.1 Regarding claims 1-8, the claims, as set forth, do not recite a method/process that is tied to another statutory class of invention and thus is not a patent eligible process under 35 U.S.C. 101. Furthermore, the claims fail to produce a useful, concrete, and tangible result. The Examiner further notes the claims' steps can be performed using a pen/pencil and paper, and therefore non-statutory. [See MPEP 2106]

**Claim Rejections - 35 USC § 112**

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5.1 Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: taking for example independent claims 1 and 4, while the claims are directed to a method for representing the configuration of an electrical system, it's unclear to the Examiner how the claims perform such a representation, more specifically independent claim 4, as presented merely recites the step of generating and displaying a graph.

**Conclusion**

6. Claims 1-8 are rejected and this action is non-final. Any inquiry concerning this communication or earlier communications from the examiner should be directed to ANDRE PIERRE LOUIS whose telephone number is (571)272-8636. The examiner can normally be reached on Mon-Fri, 8:00AM-4:30PM.
